OFF-AND-ON PARKING LOT STALLED AGAIN

Hungary Walks Out Of UN Assembly

U.N. Debating Soviet Censure

Reds Claim U.S. Move Means 'Interference'

UNITED NATIONS, N. Y. (AP)—The Hungarian delegation today walked out of the General Assembly in protest against what it called U. N. interference in Hungary's internal affairs.

The surprise move came as the 79-nation assembly debated a U. S.-sponsored move to condemn the Soviet Union for refusing to withdraw its armed forces from Hungary.

Commenting on the Hungarian walkout, U. S. Chief Delegate Henry Cabot Lodge Jr. said: "One Soviet agent the less. It would save a lot of wasted time if all the other satellites would do the same thing."

Hungarian Foreign Minister Imre Horvath led his delegation from the room after charging that some delegations, influenced by the United States, "have attempted to interfere in Hungary's domestic affairs."

"We reject these attempts and shall continue to do so in the future," he said.

Horvath said he plans to leave Wednesday for Budapest.

In his statement to the assembly, he declared that the U. N. had offended the Hungarian delegation in a way inconsistent with the honor of the Hungarian people.

"Therefore," he said, "the Hungarian delegation will not participate in the work of the General Assembly as long as the present situation continues."

Meanwhile, India and her three closest Asian allies pressed a new proposal to get Russian troops out of Hungary by sending U. N. Secretary General Dag Hammarskjöld to Moscow for negotiations.

Indian Delegate V. K. Krishna Menon was the prime mover behind the new plan as the 79-nation General Assembly continued its latest debate on the rebellion in Hungary.

Ceylon, Indonesia and Burma joined in sponsoring the Indian resolution urging that Hammarskjöld be sent to Budapest, and Moscow if necessary, to seek Russian withdrawal from the battered satellite.

Some Western diplomats condemned the Indian resolution lacking the teeth of a U. S. resolution already before the Assembly. Backed by 17 nations, it would condemn the Soviet Union sharply for Hungary's plight.

Others thought, however, that a proposal from Asian nations Russia has been wounding would gain more ground than any step by the West.

Acid-Blinding Case Delayed By Judge

NEW YORK (AP)—Trial of Johnny Dio, who the government contends masterminded the acid-blinding of labor writer Victor Riesel, has been postponed until next spring.

Federal Judge William B. Herlands Monday ordered adjournment of the trial until April 24 over bitter objections of defense counsel on the court's own motion for adjournment. Herlands said the four-month delay was necessary to get a fair trial. The judge said he wanted public emotions to cool.

New Cold Wave Moves Eastward

CHICAGO (AP)—Strong winds carried a cold wave into the central section of the nation today.

Temperatures dropped to around zero along the northern border of Montana and North Dakota. In some cases the plunge was close to 50 degrees in a 24-hour period.

The leading edge of the cold wave was expected to push into Michigan, northern Illinois, Indiana and northern Missouri and Kansas by nightfall.

Hungarian Reds To Grab Property

Soviet-Backed Regime Warns Fleeing Refugees Of Decision

VIENNA (AP)—The Hungarian government announced today that property of all persons who have left Hungary since the start of the rebellion Oct. 23 will be seized by the state.

The action was announced as the government proceeded with all means, including the transporting of workers to their jobs in Russian army trucks, to smash a 48-hour general strike called by the Budapest Workers' Council.

More than 130,000 refugees, who have registered in Austria, presumably will be affected by the new government measure unless

they return before March 31, 1957. This is the amnesty date previously set by the government for persons who have fled Hungary.

Janitors in Hungary were ordered to report within three days the names of all persons who have left their homes. Authorities then will make an inventory of all property left there.

The action came as thousands of workers launched another protest strike in defiance of the Russian-dominated government of Premier Janos Kadar.

Transportation in Budapest was badly crippled, but the work stoppage did not appear to be 100 per cent effective. Some business activity apparently was continuing under the pressure of guns of the Hungarian police and Soviet troops.

But many workers either did not report to their factories or sat idle when they reached their posts.

The call to strike for 48 hours beginning at midnight was issued by the Budapest Central Workers Council to protest the "anti-peoples anti-workers activities" of the government.

It was not immediately known how effective the strike appeal had proved in the provinces, although there were reports that stoppages had started Monday in some outlying towns.

The government again clamped down with a partial blackout on long distance telephone service outside the country.

THE KADAR government replied to the general strike call with new repressive measures, including a decree of martial law, the arrests of some worker leaders and a decree dissolving the Central Workers' Council and its regional bodies.

Refugees crossing into Austria from Hungary said the strike appeared to be spreading over the country despite martial law and possible Soviet reprisals.

Austrian railway workers returning from the Hungarian border station of Hegyesalom reported that work in that town was at a complete standstill.

No Cut In Taxes On Ike's Program

WASHINGTON (AP)—A U. S. Treasury spokesman told Congress Monday the Eisenhower administration is making no provision for a general tax reduction in its plan for the coming year.

Dan Smith, special assistant on tax policy to Secretary of the Treasury George Humphrey, informed the House Ways and Means subcommittee that, as of now, the federal budget for the next 12 months has "no room" for a tax cut. He said that "so far as I know now, I see no basis for a proposal to reduce any taxes at this time."

Honorable Discharge Given Air Officer During Dispute

WASHINGTON (AP)—The Air Force has decided to give an honorable discharge to Lt. Titus A. Saunders, a reserve officer stationed at Lockbourne, Ohio, who resigned amid disagreement over a 1954 conviction on a drunken driving charge.

When Saunders chose to resign on Nov. 27, the Air Force said he would be given a general discharge. That connotes honorable conditions, but it is less desirable than an honorable discharge.

The Air Force has maintained it followed normal procedure in telling Saunders he had to resign or be dropped from the service because of his conviction on a

drunken driving charge in Mississippi.

While he was appealing his conviction, Saunders was transferred from Mississippi to Ohio. Mississippi sought unsuccessfully to extradite him to serve a six-month jail term after the state supreme court rejected his appeal.

Saunders' resignation took effect Dec. 1. His tour of duty would have expired next July.

While he denies that he "applied pressure" to the Air Force to drop Saunders, Stennis said at the time of the Negro officer's resignation that he had written top Pentagon officials about the case.

He said he had called on them "to take action with reference to keeping an officer who was in default of his bond."

Stennis said he also had told defense and Air Force chiefs that the sworn record shows "excessive use of profanity" at the time of Saunders' arrest, in the presence of witnesses including a woman acquaintance of the senator. Stennis said he had asked what would be done about "this conduct unbecoming to an officer."

CELEBRATING a 100th birthday is quite something, but it's even more unusual when a 101-year-old visitor calls, which is the case here as Mrs. Miriam McClellan (left) of Parkhill, Ont., visits Miss Belle Ross of nearby East Williams township. They've lived in the area most of their lives.

Sale Of Kiwanis Souvenir Paper Grosses \$1,072, And Still Going

Launched by an auction that brought \$88 even before the newspapers were put in circulation, sale of the Kiwanis Welfare edition last night brought a gross total of \$1,072.45. And contributions are still accepted.

Spokesmen for the local Kiwanians were enthusiastic in lauding the welcome they received at Circleville homes when

the "newsboys" went around last night with copies of the souvenir edition. All proceeds of the sale will go to the cause of needy children, and for expansion of the club's regular policy of boosting recreation facilities for boys and girls.

Approximately 60 members of the Kiwanis Club volunteered to handle the "newsboy" job. They covered a large section of the city, but anyone who has yet to get a copy of the souvenir edition can still do so.

Copies are available at Bingman Drugs, Gallaher's Drug Store, and Circleville Rexall Drugs.

Chou's Visit To India Said To Be Success

NEW DELHI, India (AP)—New Delhi's newspapers agreed today that Red Chinese Premier Chou En-lai's visit to India was a success. But they said it would have been more of a success if Chou had agreed with India's views on the Hungarian rebellion.

The Chinese premier told newsmen he and Prime Minister Nehru did not see eye to eye on the revolt and Soviet military intervention in Hungary. He implied that he was not disturbed.

Nehru earlier told Parliament he and Chou on some matters agreed to disagree in a friendly way.

Chou generally followed the Moscow line on events in Hungary. Nehru strongly criticized the Soviet military intervention and is urging that Russian troops get out of Hungary.

In Rangoon, Chou told 500 of Burma's political leaders today the two Asian neighbors can solve a smoldering border dispute "with justice."

Chou arrived Monday on a 10-day visit to settle the border argument. Most newspapers reported his arrival on their front pages but were distinctly cool in tone.

Hearing Booked For Cincy Cops

CINCINNATI (AP)—A general hearing is scheduled later this week for two city patrolmen suspended Monday after hearings before Chief Stanley Schrotel.

The two, Ralph Wagner, 32, and August Christman, 24, were suspended on charges of conduct unbecoming an officer by parking in a secluded area with a woman in the car while on duty.

A third patrolman, Richard L. Price, 36, resigned Monday after a hearing on a department store charge of shoplifting.

YOU HAVE

11 SHOPPING DAYS TILL Christmas

Dulles Says Red Regime Weakens

PARIS (AP)—U. S. Secretary of State John Foster Dulles said today internal pressures behind the Iron Curtain may well topple Soviet communism and end the dangerous division of the globe.

He urged the foreign ministers of 15 Atlantic pact countries assembled in conference here to use every form of moral pressure to assist these forces, which he said he has good reason to believe are undermining the Soviet system.

But the secretary, in a speech optimistic and almost religious in tone, warned that the threat of internal unrest might tempt Kremlin rulers to take some risks abroad as a diversion and thereby increase the threat of war.

The American statesman declared the Soviet Communist system is deteriorating and the power of its rulers disintegrating. He said this was seen in the lessening of the power of Communist parties in the free world, in satellite unrest and in internal pressures within the Soviet Union for more liberalization, intellectual freedom, personal security and personal enjoyment.

DULLES SAID Britain and France had obeyed U. N. decisions in the Middle East while the Russians flouted them in Hungary. He called this a double standard of morality.

No matter how impatient some countries might get with this situation, the secretary said, they should use restraint. Their example will increasingly grow in influence until Soviet despotism would find it impossible to go on living by standards which decent people despise, Dulles predicted.

Dulles made his speech as the NATO nations sought to close their

Hunt Continues For Lost Airliner

VANCOUVER, B. C. (AP)—Ground search parties prepared today to enter the rugged Mt. Silvertip area about 125 miles east of here to look for a Trans-Canadian airliner missing with 62 occupants since Sunday night. Eight of the 59 passengers were Americans.

Search leaders said their "most promising lead" was a report of a "big blast" in the vicinity of 8,550-foot Mt. Silvertip. The report came from nine persons who were at a ski lodge in the area.

The plane had taken off from Vancouver for Calgary and points east about an hour before the pilot reported the inboard motor on the left side had failed and he was turning back to Vancouver, some 100 miles away.

Dixie Teachers Bolt

ATLANTA (AP)—The Atlanta Public School Teachers Assn. voted unanimously Monday night to withdraw from the American Federation of Teachers at the end of this year rather than admit Negroes to membership.

Scioto Leaders, Lausche Parley Again On Phone Setup

COLUMBUS (AP)—Scioto County authorities were meeting with Gov. Frank J. Lausche today to outline progress toward improving law enforcement there in dealing with Portsmouth phone strike violence.

Portsmouth City Manager Robert E. Layton heads a group reporting to the governor on a new training program for Portsmouth police. The program is supervised by the state highway patrol.

Scioto County authorities hope the program will meet Ohio Consolidated Telephone Co.'s demands for "law and order" before it will reopen telephone exchanges there.

The company closed the exchanges Oct. 15 after a series of stonings and cable cuttings during a strike by the Communications Workers of America (CWA) which began last July 15. The union has denied responsibility for the violence.

At a session here Monday, CWA announced its locals in the 24 Ohio counties affected by the strike re-

Suez-breach alliance against new and wider Russian threats.

Russian penetration into the Middle East, on NATO's southern flank, and the ebb and flow of Hungary's fight against Soviet mastery lent special urgency to the annual session of the foreign, finance and defense ministers from the NATO nations.

New policy trends as well as decisions on the 15 countries' 1958 military programs were expected to emerge from the conference. Several ministers publicly described the meeting as "the most important" since NATO was launched in 1949.

AEC Outlay In Ohio Said \$847 Million

WASHINGTON (AP)—The Atomic Energy Commission has fixed a value of \$847,059,000 on its plants and equipment in Ohio.

By the time current expansion projects are completed, AEC said in a financial report Monday, that valuation will rise to \$880,941,000. AEC listed its Ohio properties and their values as follows:

Aircraft nuclear propulsion laboratory at Lockland, operated by General Electric Co., completed plant—\$722,989,000; new construction in progress—\$4,000.

Gaseous diffusion plant at Waverly, run by Goodyear Atomic Corp., completed plant—\$722,989,000; new construction in progress, \$21,392,000.

Research laboratory at Miamisburg, run by Monsanto Chemical Co., completed plant—\$26,240,000; new construction in progress—\$720,000.

Feed materials plant at Fernald, run by National Lead Co. of Ohio. Completed plant—\$92,193,000; construction in progress to expand this plant—\$11,766,000.

Biggest construction in progress is the \$21,392,000 spending listed for the Waverly facility.

The main plant there has been completed. However, AEC said \$11,400,000 is being invested in a factory to produce feeder materials for that plant.

The rest of the money, the report showed, is earmarked for "auxiliary facility."

Anti-Red Probers Meeting In Frisco

SAN FRANCISCO (AP)—A House subcommittee on Un-American Activities turns today to hearing evidence on what it contends is a concerted effort by Communists to strip the country of adequate security laws.

Monday the committee asked Dr. Holland Roberts of Palo Alto if he is a "nerve center for the transmission of foreign Communist propaganda."

The former Stanford professor invoked the Fifth Amendment and refused to answer.

New Restraining Order Granted Against Project

Ammer Preparing To Ask Lifting Of Latest Injunction

Another restraining order was granted by Pickaway County common pleas Judge William D. Radcliff today against construction of a controversial parking lot at the county courthouse.

Today's petition, filed by William Hickey and Arthur Wilkin, asked for the restraining order until final determination of several legal points in the matter could be made at a court hearing.

The new petition also requested that no money from the county treasury be disbursed for the proposed parking lot until an official ruling is made.

Hickey and Wilkin filed a similar court action about two weeks ago and an injunction was granted. However, the original petition was dismissed in common pleas court last Friday on technicalities, after the county board of commissioners, defendants in the court action, filed a motion requesting that the suit be dissolved.

Judge Earl D. Parker of Pike County presided at the Friday hearing.

COUNTY PROSECUTOR WILLIAM AMMER, REPRESENTING THE BOARD OF COMMISSIONERS, SAID HE PLANNED TO FILE ANOTHER MOTION ASKING THAT THE SECOND RESTRAINING ORDER GRANTED TODAY AGAINST THE PARKING LOT ALSO BE DISSOLVED. HE SAID THE MOTION WOULD PROBABLY BE SUBMITTED TO THE COURT OF COMMON PLEAS THIS AFTERNOON.

Reports said construction men were busy at the parking lot site early this morning, hauling in and spreading gravel. However work at the site was discontinued again this afternoon in view of the new court action.

Meanwhile, Ammer made public a letter he sent to Hickey and Wilkin, explaining why he, as county prosecutor, had not filed injunction proceedings against the commissioners and the parking lot. The two taxpayers had asked in an earlier communication that he take that action.

Ammer told Hickey and Wilkin that the contracts let in connection with the project were in accordance with law, and that there is no basis for any injunction suit.

Cardinal Warns U.S.: Be Alert

LOS ANGELES (AP)—The United States, says Francis Cardinal Spellman, "may get only 60 minutes warning if war comes."

The Archbishop of New York, arriving by plane Monday from the Far East, declared:

"The slaughtering of people in Hungary should give Americans the firm, definite impression that we must be alert."

The cardinal represented Pope Pius XII at the National Eucharistic Congress at Manila and then visited American servicemen in Okinawa and Japan.

DROODLES

By ROGER PRICE

"JET PLANE AFTER BEING BROKEN BY SOUND BARRIER"

This Droodle is actually an authentic copy I made of a photograph that was sent to me via intersteller mail by my favorite Science Fiction hero, Captain Droodles, Space Bum. The Capt. ran his Rocket Ship into a Flying Saucer just South of Venus and he sent me this picture, along with a full accident report so that I could forward it to the A.A.A. He's suing to collect 800 million dollars to repair the nuclear-rectroreflector-dynamometer that powers his ship and he also wants another 300 thousand dollars to pay for the personal injuries he sustained. However, I doubt if he'll collect a cent because the Martian he ran into is really in bad shape. He's got 8 broken legs and both of his skulls are fractured.

Candidates Tell What It Cost In Nov. 6 Race

Campaign expenditures for the November 6 election were revealed today by the Pickaway County board of elections.

Figures tabulated at the election board office revealed that the county Democratic committee expenses totaled \$2,056.31. The Republican committee spent \$827.79.

Individual candidate expenses and the offices involved were as follows:

William Ammer, \$123.47 (county prosecutor); Joe Brink, \$422.19, Lewis Cook, \$315.59, and Verna M. O'Hara, \$363.01 (county auditor); William Goode, \$262.35, Lyman Penn, \$374.90, Wayne Hines, \$431.90, Clyde E. Michel, \$402.06, (county board of commissioners).

ROBERT WOOD, \$258.71, Ed Wallace, \$347.37 (state representative); Florence Campbell, \$198.75 (county recorder); James H. Mowery, \$221.70 (county clerk of courts); Robert G. Colville, \$246.63 (county treasurer); Charles H. Radcliff, \$224.68 (county sheriff); Henry T. McCrady, \$344.55 (county engineer); Dr. Ray Carroll, no expenses (county coroner).

Refugees Continue To Flee Hungary

VIENNA (AP)—Despite martial law in Hungary, refugees continued to stream into Austria. Authorities said 1,900 refugees came across the border Sunday.

This continued stream is one of the major mysteries of the Hungarian crisis. Although the Russians have had weeks to seal off the Hungarian-Austrian border if they wished, the refugees slip through. The total is now approaching 130,000.

One refugee said he was certain that Russian troops near the frontier heard his party approaching the border during the night, since several babies were crying.

MARKETS

CIRCLEVILLE HOG MARKETS

Hog prices, all net, were reported by the Pickaway Livestock Co-op Association here today as follows:

190-220 lbs., \$17.25; 220-240 lbs., \$16.75; 240-260 lbs., \$16.50; 260-280 lbs., \$16.00; 280-300 lbs., \$15.50; 300-350 lbs., \$15.00; 350-400 lbs., \$14.25; 180-190 lbs., \$16.75; 160-180 lbs., \$15.75; Sows, \$15.25 down; stags and boars, \$10.50 down.

CHICAGO

CHICAGO (AP)—(USDA)—Salable hogs 12,000; open show trade fairly active, generally 25 lower on butchers; sows mostly 25 lower; No. 2 mixed grades 190-300 lbs., \$16.25; WASHINGTON (AP)—The loan of \$1,300,000,000 to Britain by the International Monetary Fund Monday night may clear the Washington air for a while, at least. It is getting confused toward the end of last week.

Britain had suffered economic damage from her joint attack with France on Egypt. For one thing, the invasion cost money. For another, oil supplies from the Middle East were shut off when the Suez Canal was blocked.

The United States is going to make up a part of the oil loss by shipping oil from this country. Nevertheless, Britain showed she still was in an economic squeeze by asking this country to waive nearly 82 million dollars in interest on previous debts.

Keeping the British economy healthy is in the interest of the United States. A collapse in Britain would be felt around the world, particularly in Western Europe.

Last Thursday some high authorities in the government were talking of increased aid to Britain, not as big as the Marshall plan, but nevertheless sizable. But the talk was vague.

On Thursday night Vice President Nixon touched on the same subject in a New York speech although he too was vague when he said:

"I believe it is in our interest as well as theirs (the British) in this hour of difficulty, and I am confident that there will be strong bipartisan support in Congress for granting such assistance."

It seemed unlikely Nixon would talk like that unless he knew he was stating administration thinking.

As if to make it official, James C. Hagerty, President Eisenhower's press secretary, said that while Eisenhower didn't see the Nixon speech beforehand, "the vice president knows the policies of the President."

So administration thinking seemed to be in the direction of fresh aid for Britain, to be voted by Congress. But on Saturday night Secretary of the Treasury Humphrey appeared to throw cold water on this notion. Speaking in New York, he said:

"Some of the estimates for financial support have been greatly exaggerated. The fact is that in all probability existing institutions will be able to provide most of the assistance that may be needed."

The "existing institutions" Humphrey had in mind must have included the International Monetary Fund, established in 1947. The United States, Britain and a batch of other countries are members.

Each contributes a share of the money which makes up the fund from which a needy member can get a loan, as Britain did Monday night. The British will have to pay interest on the money, besides paying back the principal.

But the fund is an international organization. Congress has nothing to do with the loans it makes. So Humphrey was right, at least up to now.

Maybe by the time Congress comes back in January Britain will need more money. If so, the Eisenhower administration will then have to ask Congress to help the British.

Fliers Fix Plane, Leave South Pole

McMURDO SOUND, Antarctica (AP)—Ten airmen, stranded at the South Pole by engine trouble, have repaired their plane and returned to this base.

They brought back word that the 24 U. S. Seabees building a scientific station at the pole were happy, warm and well fed "but they naturally will be glad to get the job done."

Capt. Douglas L. Cordiner, one of the airmen who spent two days at the pole after their Navy Neptune bomber developed trouble in a jet engine, said the Seabees have put up to erect the six buildings they are to erect. He said major construction should be finished by the end of the month.

\$66 Million Ohio Highway Improvement Program Set

COLUMBUS, Ohio (AP)—State Highway Director S. O. Linzell today announced plans for a three-year highway improvement program costing \$66,254,000.

The program, to be financed with revenues from the two-cent gasoline tax for new construction, will supplement the recently announced long-range federal highway aid program and the proposed major thoroughfare program.

The highway improvement fund is the only state fund eligible for

use on about 12,000 of 18,400 miles of state highways, Linzell said.

The money, after setting aside funds for operation of the department, and supplementing maintenance funds, provides about 20 million dollars per year for construction programs. This fund must be used to match secondary federal aid funds and some primary federal aid and urban federal aid funds for projects not on the major thoroughfare system.

The fund is set aside for five major purposes. These include re-

surfacing, elimination of weak and narrow bridges, correction of accident prone sections, elimination of traffic bottlenecks and corrections of landslide and drainage problems.

Linzell sent copies of his program to the Ohio House and Senate. He warned that the program may have to be curtailed drastically unless the Legislature makes available to the highway department revenue from the axle mile tax on trucks to finance the engineering costs on bond issue projects under the major thoroughfare program.

This cost amounts to about 10 million dollars a year. The axle mile tax raises between 10 and 11 millions a year.

The highway improvement program announced by Linzell today would be for the calendar year of 1957, and partial program for 1958 and 1959 calendar years. The improvement projects are planned in each of the highway department's 10 divisions.

Even Canine-Class Joining Union Now

LOUISVILLE, Ky. (AP)—The drive to organize labor is reaching into the canine class.

The American Guild of Animal Actors headed by Bronx Theater Critic Miss Peggy Foldes, will seek definite working hours, a minimum wage, and retirement benefits.

Another goal is a home for aged dogs and other animals who appear on stage, screen, television and as models in ads.

A letter announcing formation of the guild said Lassie, Rin Tin Tin and Fleeta, among others, "deserve a comfortable old age when their popularity wanes."

The letter didn't make clear whether union dues would be paid in the name of animal members or their owners.

Ohio Farmers Mark Ballots In National Corn Referendum

COLUMBUS, Ohio (AP)—Corn farmers in 71 Ohio counties vote today in a national corn referendum. Like his counterparts in 23 other states, the Ohio corn grower must choose between:

1. A soil bank corn base program.

2. A corn acreage allotment program.

The first plan guarantees him 74 per cent of parity in 1957. This amounts to \$1.31 a bushel for his corn, before costs for storage and the like.

However, Riley S. Dougan, agriculture economist at Ohio State University, says the farmer must consider that the price per bushel could be anywhere from 90 to zero per cent of parity after 1957, although drastic change is not likely.

The first plan also provides that 51 million acres across the country be put into corn production. This will be the acreage until 1959. If the farmer's share of this is, say,

Shackleford Guilty In Newark Slaying

NEWARK, Ohio (AP)—A Licking County Common Pleas Court jury Monday night found Harold E. Shackleford, 32, guilty of first degree murder and made no recommendation of mercy.

Judge Charles B. Holtsberry said he will sentence Shackleford Friday. The death sentence is mandatory for a first degree murder conviction without mercy.

Shackleford was convicted of the slaying of Miss Mary Dunn, 51, last Sept. 16 as she was on her way to church here. He was accused of strangling her while trying to commit rape.

Early Christmas Comes; Boy Dies

MIDDLETOWN (AP)—David Collins, 9, died in his sleep Monday, surrounded with Christmas toys.

A victim of leukemia, the boy, only son of Mr. and Mrs. Kernie Collins, asked for an early Christmas a few weeks ago. When the Middletown Journal printed a story of the boy's desires, presents poured into the home.

The newspaper learned about David's illness from a hospital report showing that he had received 26 blood transfusions.

Religious Chiefs Ask Special Prayer

NEW YORK (AP)—Leaders of three major faiths in the United States — Protestant, Roman Catholic and Jewish — have urged special prayers this weekend "for divine guidance for the United Nations." The appeals came Monday from the National Council of Churches, the National Catholic Welfare Conference and the Synagogue Council of America.

Viet Nam Sends Aid To Refugees

NEW YORK (AP)—Tran Van Choung, Viet Nam's ambassador to the United States, has presented a check for \$70,000 to the International Rescue Committee to help refugees from Communist oppression in Hungary.

Tran said the money came almost entirely from small individual contributions by the people of South Viet Nam.

Army Pfc. Don F. Davis, son of Mr. and Mrs. Charles E. Davis, 452 N. Court St., participated in "Sabre Knot", a field training exercise with the Seventh Army in Germany.

Davis entered the Army in August 1955 and is a clerk in Headquarters Company of the 3rd Armored Division's 45th Battalion.

Mrs. Joyce Butterbaugh has left for Rapid City, S. D., to be with her husband, Pvt. Donald Butterbaugh, son of Mr. and Mrs. Elmer Butterbaugh of Stoutsville.

Butterbaugh is now stationed at Ellsworth Air Force Base at Rapid City.

He entered Army service September 12 and had his basic training at Fort Hood, Texas.

The Butterbaughs can now be addressed at 1024 Rapid St., Rapid City, S. D.

Printers Denied Overtime Pay

CLEVELAND (AP)—A \$7,500 suit for overtime pay by three former employees of the Stark County Sun, Inc., was dismissed Monday by Federal Judge Paul Jones.

The judge ruled linotypist Anthony Babbo, printer Harold Terrett and pressman-stereotyper Lawrence McClelland were not entitled to overtime because the Federal Fair Labor Standards Act exempts weekly newspapers whose circulation is under 4,000.

Slow Reading OKd By Professor

EAST LANSING, Mich. (AP)—A Michigan State University English professor has a word in defense of the slow reader. Dr. E. V. Leichty, criticizing the stress in recent years on speed in reading, says, "Because good books not only record thought but also provoke it, justice can seldom be done them in a hurried reading, or even by a single careful reading."

Defendant Finds Judge Will Please

SPRINGFIELD (AP)—Taylor H. Combs, 22, found Municipal Judge Ben J. Goldman to be in an accommodating mood.

Taylor was before the court on a charge of failure to stop after an accident.

Judge Goldman fined him \$100 and costs, suspended his driving

rights for a period of six months, then suspended a three-day jail sentence.

After hearing the sentence pronounced, Combs asked the court

to make his license suspension for a period of 12 months instead of 6 "to keep me out of trouble." Judge Goldman agreed to the unusual request.

Merry Yuletide, You Delinquents!

WASHINGTON (AP)—For the next couple of weeks, the Internal Revenue Service is going to stop tapping payrolls as a means of collecting taxes from some 10,000 delinquent individuals. The government has been getting around \$50 to \$100 a week from most of them.

But over the Yuletide, Internal Revenue Commissioner Russell Harrington has ordered a halt on this process. The idea is that some of the people may need a little extra cash to buy toys for their kids.

Big Soothsaying Guns Levelled At '57 Outlook

Most Predictions Seen As Optimistic, But Bankers Urge Caution

NEW YORK (AP) — The big soothsaying guns are being trained today on the outlook for 1957.

Taking part in this seasonal outbreak of predictions of what to expect in the coming year are a pride of industrial lions, top men in oil, autos, steel, rails, building, textiles, farm implements, retail, aircraft, railroads, meat packing, insurance and banking.

Mostly they see good times continuing. But here and there are some who see a slowdown in their own industry. And the banker, in particular, sounds the note of caution.

An over-all view, and a most optimistic one, is taken by Carroll M. Shanks, president of Prudential Insurance. His economists see the dollar value of all goods and services to be produced in the United States next year rising to a whopping 430 billion, up nearly 20 billion from the estimated Gross National Product for 1956. They see consumer spending rising by 10 billion dollars next year from 1956's 265 billion.

Roger M. Blough, U.S. Steel chairman, is "reasonably optimistic for the over-all economic outlook." He sees steel production at high level through the first six months of next year "come what may in international affairs."

The auto industry's big three see a better year dawning. Harlow H. Curtice, General Motors president, predicts Americans will buy 6½ million new cars in 1957, 10 per cent more than this year. L. L. Colbert, Chrysler president, says 1957 "approaches the potential of 1955 as one of the biggest years for the automobile industry." Henry Ford II, Ford president, agrees and looks ahead 10 years to see car ownership rising from the present 47 million to nearly 67 million and annual sales at 8½ million.

Near and long term views of the housing prospects vary sharply. Economist Miles L. Colean tells Architectural Forum, building magazine, that the next 10 years will see a 26 per cent expansion in building of new homes. But Joseph P. McMurray, New York State housing commissioner, says the 1957 rate of home building will be the lowest since 1949, unless the mortgage market improves.

NEAR 50 YEARS AGO

New York's first subway was officially opened. Those who took the first ride said it was "a bit noisy."

Dayton Defendant To Testify Again

DAYTON, Ohio (AP) — Lee Bryant, 46, is expected to be recalled to the stand today for cross-examination as his first degree murder trial enters its seventh day.

Bryant testified Monday that he fatally shot Thomas Barner, 26, in self defense. He said Barner attacked him in the rear of the Hi Lee Tavern here.

Bryant testified he became enraged at Barner and his friend, Donald E. Straitiff, 29, because they ridiculed his physical appearance and called him filthy names. Bryant lost his hair and left arm in a fire 25 years ago.

Prosecuting attorneys have contended Bryant shot Barner, mistaking him for Straitiff. Bryant had argued earlier with Straitiff over a \$10 baseball bet, they claim.

Holland Visitors Taking Look At U.S.

XENIA, Ohio (AP) — Two visitors from Holland are seeing what life in America is all about.

Miss Dooitje Jongsma, 25, an Amsterdam school teacher, and Izak Geelhoed, 32, a Dreesch village garbage collector, are guests of businessmen and citizens of Xenia and Dayton.

They will be shown as much of American business, civic, educational, religious, farm, military and home life as time will permit. They will return to Holland Dec. 23 by plane.

Their visit was arranged by Airman I.C. Harry W. Morgan, 22, of Wright-Patterson Air Force Base near Dayton, who collected funds for their trip. He met Miss Jongsma and Geelhoed when the three did volunteer relief work together in Holland after the 1953 floods there.

Payment To Widow To Bring Freedom

CHARDON (AP) — If Louis Herrerman, 36, pays \$2,500 to the widow of the man he killed with his car, he can get out of jail.

Judge Harold Richmond made Heffernan, who pleaded guilty to manslaughter, eligible for parole in 60 days if he pays the money to Mrs. Howard Scott. Her husband, chief deputy of Geauga County, was struck by Heffernan's car in front of Grandview Race Track last Sept. 13. The judge also suspended Heffernan's driver's license for 90 days.

United Appeal Take Slated For Hike

NEW YORK (AP) — The American public is expected to contribute an estimated 378 million dollars, 12 per cent more than last year, to the 2,000 United Community Chests this fall. The estimate was made today in a report by the United Community Chests of the United States and Canada.

Uncensored Report On Red China

750-Acre Plant Turning Out First Chinese Automobiles

EDITOR'S NOTE: This is another in a series of stories on Communist China by David Lancashire, Canadian reporter who spend six weeks there.

By DAVID LANCASHIRE
CHANGCHUN, China (AP) — A 750-acre plant equipped with Russian and American machines is turning out the first motor vehicles ever produced in China.

Changchun's No. 1 motor vehicle plant — standing beside the ruins of an abandoned Japanese factory — is a 257-million dollar example of the swelling industry that is transforming this wasteland area of Manchuria into an immense manufacturing belt.

The automotive factory is the initial step toward large-scale industrialization of the city 700 miles north of Peking.

Industrialization of the province and the establishment of a huge governmental organization here have transformed Changchun into a bustling semimodern city of 830,000. New, western-designed construction is going up on every block. One can walk the streets for half an hour without seeing

Court OKs Union Demand For Data

WASHINGTON (AP) — The Supreme Court has upheld a National Labor Relations Board order requiring individual wage data to be supplied to a union.

The decision applied specifically to the F. W. Woolworth Co. store in San Bernardino, Calif. The store had been directed to furnish wage information on each employee to the retail Clerks Union, Local 1167.

a building more than five years old.

With the expansion and the motor plant has come prosperity. Local peasants in their padded cotton coats and towering fur hats seems bewildered by the changes around them.

Three years to the day after construction of the motor works was begun, the first "liberation trucks" that are the pride of China's five-year plan rolled off the assembly line on July 15 this year.

Before the end of the year, 4,000 of the six-wheeled trucks will be on Chinese highways. Eventual production, by official prediction will be 30,000 vehicles a year.

The end product is a four-ton open body truck similar in design to a low-priced American model. Power is provided by a six-cylinder 90-horsepower engine of Soviet design. It is all Chinese with 409 parts such as glass, tires and gauges coming from factories all over China.

Planned cost is 20,000 yuan, the equivalent of about \$8,570 each. Since all trucks will be distributed by the state, no money changes hands.

The plant was designed and set up from blueprint to production stages under Russian aid. Eighty Soviet specialists are still working in the plant. Installation of the machines and training of Chinese apprentices were supervised by a crew of 180 Soviet technicians.

"We owe a great deal to the Russians," said Li Tai-Sun, assistant director. "Never having produced automotive machinery before in China, we had to start from the beginning."

No passenger automobiles will

be built in Changchun. Another vehicle plant is scheduled for construction under the second five-year plan (1957-62), but its location has not been disclosed.

The pay in the Changchun plant is roughly equivalent to that in other Manchurian plants. Salaries range from 25 yuan a month for apprentices to 105 yuan (about \$45) for highly skilled machinists. Merit awards of 25 to 30 per cent of the monthly scale are paid to model workers, and employees with large families are subsidized.

Training classes are intensive and extensive. Most of the men and women employees attend night classes. A network of part time schools provides courses from elementary education to university degrees.

Despite immense production increases in the past three years, China is obviously still far from self sufficient. Parked outside the Changchun plant were a dozen American cars and a fleet of official Polish sedans for the use of the Russian technologists.

(Tomorrow—The extent of Soviet influence in Red China.)

Veteran Hospital Aide Dies At 83

CINCINNATI (AP) — Mrs. Clara Rief, who entered St. Francis Hospital as a girl of 16 to have her sight restored, and in gratitude stayed on to serve the hospital the rest of her life, died Monday at the hospital. She was 83.

The nurse was a hero of a fire 16 years ago in an old hospital building, turning in the first alarm and helping evacuate the patients.

Ohioan Urges Sanctions Be Put On Reds

WASHINGTON (AP) — Rep. Wayne L. Hays (D-Ohio) said Monday the United States should seek international economic sanctions against the Russians and the present Hungarian regime for flaunting the United Nations in the Hungarian crisis.

Hays spoke at a new conference upon his return from a European visit.

He went to Paris as chairman of the U. S. House delegation to the North Atlantic Treaty Organization.

ization (NATO) conference of Parliament members. He also spent several days on the Austrian-Hungarian border.

The congressman said Americans are in the "tragic situation" of having to spend perhaps billions of dollars "to compensate for a lack of policy in the Near East."

Hays, a member of the House Foreign Affairs Committee, attacked the Eisenhower administration generally for what he said was a lack of foreign policy.

Hays also said he is trying to find an Ohio home for a young Hungarian couple who fled their Communist-ruled land during the revolt against the Russians.

Hays talked with Bella Lukacs, 20, and his wife, Johanna, 22, at

a refugee camp near Vienna. He said both had been attending the University of Budapest and that he will try to get them into an American college, preferably Ohio State University.

Cleveland Homicide Total Hits Record

CLEVELAND (AP) — The total number of homicides in Cleveland this year rose to 105 Monday night, matching the all-time record of 1952.

The 105th victim was John Sanders, 35, who died in St. Vincent Charity Hospital of a bullet wound in the head. He was shot in front of a tavern early Sunday.

Business Finds Paper Work Is Big Problem

Simple Office Memo Sometimes Proves To Be Hard To Handle

By SAM DAWSON
NEW YORK (AP)—Coping with the increasing flood of mail in and out of business firms and with the ubiquitous office memo taxes the ingenuity of many managements today.

Sometimes it seems an airmail letter can fly across the country in less time than it takes an office memo to reach another office on the floor below.

Mechanical devices to speed delivery and collections, new methods of sorting on the run, intricate machines for weighing and stamping and figuring foreign postage — all are being tried in the fight to dig a way out of the growing mountain of paper work under which today's business increasingly is being smothered.

An endless chain links all floors from the 12th to 30th in the new Socony Mobil Oil building in Midtown New York. Automatically it ejects mail and picks up returning letters, packages and memos, and in turn leaves them on the floor where they belong.

The longest time element involved is seven minutes. The system handles an average of 2½ tons of paper and cardboard a day.

Conveyor belts speed mail through 13 floors of the Mutual Life Insurance building on Broadway. The company knows it answers 20,000 letters a month, but doesn't count mail needing no reply (for example, premium payments) or the stocks of interoffice correspondence.

Attendants on each floor take the mail baskets, sort the incoming for the various divisions on that floor, and send back inter-office paper work for other floors, or outgoing letters for the mail room, where 15 persons handle the flood. There are one to three attendants on each floor, depending on the traffic in paper there.

The Esso Research and Engineering Co., a Jersey Standard Oil affiliate, uses specially built carts, something like those in a supermarket, at its Linden, N. J., center. With these carts girls can sort the mail as they pick it up and deliver it — saving 700 miles of walking each year. The company's incoming and overseas mail averages 325 tons a year.

Socony says it saves millions of

DEAR MARY HAWORTH: I am a wife and mother in middle age; and a difficulty has arisen. Our children are married and gone from home, and a lifelong friend of our younger daughter has made a pass at my husband.

This young woman—I'll call her Janet—has been as much rival as friend to our daughter. She seemed always to create rivalry, and often was envious. She always has admired my husband because (I think) he is so different from her father. My husband is kind, generous and considerate; and her father was noisy, stingy and domineering.

This recent episode has grieved me greatly. It happens at a crucial time in our lives, when neither my husband nor I are very well; and when I, especially, am at a difficult age. Janet's interest has flattered and touched my husband, but he tells me there's nothing to it, so far as he is concerned. Yet I've seen his preoccupied wistful looks.

I didn't handle the situation wisely; I was frank and open as always and just emphasized it. If I had been smart enough to beat around the bush, it mightn't have become such a monster; but I couldn't seem to hold all that trouble inside me.

Now the holidays are approaching and our younger daughter and her husband will be visiting us; and I expect Janet will seize that opportunity to visit us, maybe repeatedly. She's unwelcome in my

U.S. Unemployment Total Increases

WASHINGTON (AP)—The government reports that the number of Americans unemployed in November increased.

The number of November job holders was 65,268,000, down 906,000 from October. This is still a record for November and 461,000 more than were employed in November last year.

The jobless total was 2,463,000, an increase of 554,000 from October and 65,000 more than in November last year.

footsteps a year with its new system but reserves its greatest praise for the amount of time saved in speeding company business.

home at present—since we've made such an issue of her behavior; so how can I get rid of her? What should I say when she appears?

DEAR K. P.: Granted that Janet is a tireless troublemaker in her relations with other women, still that's only one factor in your overall difficulty at present.

A sizeable element of the problem stems from your "difficult age"—by which you refer to the climacteric, I assume. During the involuntarily phase, it isn't uncommon for wives to become jealous, anxious and suspicious of their husbands' gallantries to other women.

No doubt it's true that Janet herself means nothing to your husband. His response is to what she symbolizes, namely: youth attracted to him. You've misconstrued the significance of his wistful preoccupied air, since Janet became an issue. He isn't daydreaming of her in a loveless vein, so much as he is mourning his vanished youth, and reviewing it in memory, with nostalgic pining—wistful back, as it were, by (1) Janet's coquetry, and (2) the ailing atmosphere that envelops your marriage, recently.

As for how to act or what to say: 1. Isn't it natural to warn your daughter that Janet isn't welcome and you don't want her encouraged to hang around, because she's been making passes at dad and thus has caused trouble that you deplore? 2. If Janet shows up, be curt and stay to the fore. Let her feel the chill of your attitude, as reminder of her mistake. Do and say what your mood suggests; don't be a quaking hypocrite.

M. H.
Mary Haworth counsels through her column, not by mail or personal interview. Write her in care of this newspaper.

'I Love Presley' Buttons Don't Sell

PHILADELPHIA (AP)—It can cost more to hate Elvis Presley than to love him here. A downtown stand sells "I hate Elvis" buttons for 15 cents. "I love Elvis" emblems cost only a dime. The vendor says he had to cut the price of the "love" buttons because they weren't selling.

Chou Drops Hint On Yanks In China

CALCUTTA (AP)—Red Chinese Premier Chou En-lai has hinted the United States must make concessions before the Peiping regime will release 10 Americans still held in Communist China.

Chou, winding up his tour of South India, told a news conference his government had released 34 Americans but that the United States had neither released any Chinese nor given Peiping a list of Chinese in the United States.

"With this comparison," the premier said, "I leave it up to you to judge which side should make the next step."

The United States had repeatedly told Peiping that it is detaining no Chinese and all who wish to leave America have gone.

Dr. Geer Granted Change Of Venue

LANCASTER (AP)—Fairfield County Judge Harry Kilburger today upheld the motion of Jack Supman, attorney for Dr. Joseph A. Geer, that Dr. Geer's trial on narcotics charges be transferred to another county.

Dr. Geer, county coroner, is under indictment on 13 counts of falsifying narcotics prescriptions. He had pleaded innocent, and his trial was set originally for Dec. 18.

His attorney charged in his motion to the court that Dr. Geer could not get a fair and impartial trial in Fairfield County.

Judge Kilburger said he would announce later in the week a new site for the trial.

Auctioneer Nearly Sells His Own Coat

LOS ANGELES (AP)—Auctioneer Lee Proctor was going so strong that he almost sold his own coat.

Proctor, conducting the annual sale of burglary loot for the Police Department Saturday, had the bid on the coat up to \$3.50 before he recognized his fountain pen in a pocket. A wag among the policemen had handed the coat to the auctioneer.

Cop Bombarded By Booze Cans

JACKSONVILLE, Fla. (AP)—Trooper R. L. Adkins of the Florida highway patrol encountered road hazards when he chased a moonshine runner Sunday.

He said the fellow kept throwing five gallon tins of illegal whisky in his path when he closed in. The moonshiner escaped.

Dear Girls: Do You Want Kitchenette In Next Auto?

By DOROTHY ROE
Associated Press Women's Editor
Dear girls: If you would like a kitchenette, vanity table or bottle warmer built into your next automobile, just write to Harley J. Earl, vice president in charge of styling, General Motors, Detroit, Mich.

The affable, 6-foot-4 dean of motor car design, who has been dubbed "Mr. Automobile," says all he wants to know is what the ladies want in an automobile and, by gum, he'll give it to them. In New York for the opening of the automobile show, Earl relaxed for a few minutes and chatted about recent discoveries in his business.

"I've designed more than 30 million cars," said he, "and it wasn't until a couple of years ago that I realized how much I could learn from women. This was at a shindig in New York, where about 300 newspaperwomen from all over the country were present. I invited them to fire questions at me, and boy, did they fire! I never had to answer so many things so fast in my life.

"Since then, I've been listening to the remarks women make about their cars, and a lot of the changes in the 1957 automobiles are the result of this listening." Earl spoke with admiration of

the women designers now on the staff of each of the General Motors cars. Said he: "We have one woman doing interior design for each of the cars, along with four men. Well, did you ever see a girl with four brothers? She bosses them all. It's the same way in our plant. These girls think of all kinds of things that never occur to men, and they get them through too."

How To Hold FALSE TEETH More Firmly In Place
Do your false teeth annoy and embarrass you when you eat, laugh or talk? Just sprinkle a little PASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get PASTEETH today at any drug counter.

The exciting Ford Fairlane 500 Club Victoria (above)—over 17 feet long—is one of two new, bigger Ford sizes this year.

If you think it looks new... wait till you drive it!

...For there's where Ford's newness really pays off
...in melting mountains...in smoothing the bumps
...in straightening the curves

You can see that Ford's longer, lower Sculptured Look makes other cars look downright old-fashioned. But the part you can't see—the new "Inner Ford"—is what shows its stuff when you drive a Ford. It's revolutionary from the wheels up! And it feels it.

Ford's wider frame lets you sit sweet and low. And Ford's new front suspension, rear springs and new easy handling are part of the scheme to make you think every road is cloud-smooth.

The magic touch of the new Ford power plants makes mountains disappear. What looks like uphill feels like downhill. You get this surging power in a wide choice of Silver Anniversary V-8 engines. Or choose Ford's Mileage Maker Six, the most powerful Six in the low-price field.

There's magic in Ford's price tag, too! You won't believe this big new Ford is still priced Ford-low. But it is. Come in and test its magic. It's a real "Wizard of Ah-h-h-h's!"

A DAY OF SORROW

IT IS A TRAGIC paradox that the Christmas season, which ought to be the happiest time of the year, should be the time when more human beings than ever are slaughtered or maimed on the nation's highways.

The season when we should be most considerate to our fellow men, if the Christmas story has any meaning for us, is the one when we seem to drive with the least concern for whether they, or we, get home alive.

At the end of this year's Christmas holiday, morgues, mortuaries, and hospital beds the nation over will carry a sad and heavy burden of men, women, and children with broken heads and limbs. The roadsides will be littered with the crumpled wrecks of cars in which their festive holidays were cut short.

To the families of these unfortunates, Christmas 1956 will always be a day of sorrow. But most of the rest of us have shorter memories. Judging by experience, the roads will be filled during the Christmas season of 1957 with people hurrying too fast to get from one party to the next, with drivers trying to pass other cars on hills at the risk of their necks, with people with too much alcohol under their belts and on their brain to be at the wheel of any car.

Next year, like this, the National Safety Council will probably be able to predict with accuracy, before the holiday starts, how many people will be killed. Won't we ever learn? Or perhaps it would be a more pertinent question to ask: Won't you?

CHANGING TIMES

THE MAIN consideration in a feminine mind at a hat counter today is, "Will it make me look pretty?" says an expert on styles in ladies' bonnets over the years and the attitude of wearers toward the whole question of headgear. She is Miss Lillian Rasmussen, of Chicago, who has retired after clerking for 50 years in the Windy City's largest department store, 37 selling hats.

"No woman can be well dressed without a hat," she says, adding that women were more gracious and patient when liveried footmen assisted them from carriages before Marshall Field's State Street entrance. This, of course, raises the question whether they would not be willing to resume their former demeanor if such service were restored.

Miss Rasmussen can recall when silk and velvet bonnets, complete with feathers, sold for as high as \$250. She says her eyes nearly popped when she stared out the windows watching ladies like Mrs. Potter Palmer sweeping from their carriages and into the stores," she says. Mrs. P. Potter would probably turn over in her crypt if she knew clerks were referring to her in such terms as "sweeping."

Ah, well—new times new ways, etc. Boy! Shove me that hand cart.

CHRISTMAS SPIRIT

A MAN OF FEW WORDS — and those short and simple ones — once wrote a Christmas message. No one would ever have thought of him as a poet. The adjective most appropriate to his mode of speech would have been laconic. But, somehow or

George E. Sokolsky's

These Days

What is actually happening in this country is that more money is needed to finance the growth and expansion of existing enterprises and the development of new enterprises than the current reservoirs of savings can provide. Therefore the demand for money is greater than the supply and the money market has become abnormally tight. In such a period the market value of bonds goes down which has been happening for some time.

The huge influx of foreign-owned American dollars into the American money market is due to two causes: 1. This is still the safest place for private capital for investment; 2. The constant need for more capital to keep American industry going and the drying up of indigenous reservoirs of capital because of exorbitant taxes, makes this market attractive.

The answer to this problem is to reduce government expenditures by about \$10,000,000,000 and to reduce income taxes accordingly. The Hoover Commission has indicated in its various reports how government expenditures can be cut without impairing any essential services.

While lip-service has been paid to the work of the Hoover Commission, savings in government expenditures have not been made and probably will not be made in view of the additional expenditures due to the Middle East War, for much of which the United States is bound to pay, if only because no other country has the money or the will to pay.

The clearing of the Suez Canal has now become our problem, as we have backed Nasser and rejected the British and the French. Nasser has no money to clear the Suez Canal and his Russian ally has already announced that he will not contribute a rouble for that purpose. The United Nations Organization has no money except such as is contributed by its members.

Therefore, it will come down to the United States, directly or indirectly, paying for clearing the Suez Canal, at a time when financial husbandry demands that our government cut its expenses. The American economy is too taut to take on much more.

At the same time, we are expected to pay one-third of the cost of the U.N.E.F., which is taking over the guarding of the canal and as a war-preventative force between Egypt and Israel; before long a similar force will probably have to be stationed between Syria and Israel, and between Syria and Iraq. The United Nations has 79 members; why should the United States pay one-third? The answer, of course, is that this country is a good-natured Charley who grabs the tab so fast that no one has a chance even to be reluctant.

So, it is to be assumed from the state of affairs that we shall not have a cut in government expenditures and that we shall not have a cut in income taxes, and that we shall be very lucky indeed if we do not have an increase in taxes.

That, of course, means that realistically our earnings are not what they appear to be but are the face-value figure minus all taxes, excises, fees, etc., which go to the federal, state and municipal governments.

(Continued on Page Eleven)

other, the message he wrote turned out to be both eloquent and poetic.

"Christmas it not a time or a season," he wrote, "but a state of mind. To cherish peace and good will, to be plenteous in mercy, is to have the real spirit of Christmas. If we think on these things, there will be born in us a Savior and over us will shine a star sending its gleam of hope to the world."

That is the message, in its entirety. It was written 30 years ago at the White House by a shy Vermonter named Calvin Coolidge. It is worth remembering.

SYNOPSIS

Casson Duker, a well-to-do amateur detective, is intrigued when Henry Lockyer, a local doctor, tells him he has been blackmailed by an ordinary looking little man named Bagot who threatened to ruin his reputation. Bagot promises not to bother him again. One thing distinguishes the insignificant Bagot: He passed to admire a piece of Roman sculpture in Lockyer's house. Casson thinks this interest may trap him. Casson goes to his friend, George Strutt, a police superintendent, for help. Strutt becomes interested in the case. Later, Casson meets another friend, Nigel Willington, an antique dealer, and asks him to check his sales record for a Roman sculpture for possible leads. Meanwhile, Strutt has dug up a similar case from the police files—the Greenhaugh case, in which the blackmailer called himself Martin. On a visit to Willington's, Casson sees a man answering Bagot's description buy two bronze statues. He follows him to his home in Bickerseth Street, and finds a room across the street. He discovers that the suspect frequents the Shapley Arms, a local tavern. The bartender tells Casson that the man's name is John Perry. Casson follows Perry to a rendezvous with Jim MacFarlane, a young man who works in Gorman's Bank of which Lockyer is a director. The following morning, Perry leaves his house in his Bagot disguise.

CHAPTER 12

BY THE TIME Perry had reached immobility, Casson was sweating. He had had to cover three times the ground that Perry had traced. He dared not be noticed, and he had had to make detours up side streets, circle round to come back from another direction on the suspicious little man.

Fortunately he had once lived in Cheval Place and he knew the neighborhood inside out. Casson was sure that he himself had not been observed. While Perry stood in apparent thought on the corner of Montpelier Square, Casson walked down to the Brompton Road. He picked up a taxi, told it to drive to another corner of the Square, and wait. He sat well back in the side it, lost in the darkness, watching. Perry's object was a house on the south side of the Square but which it was Casson could not tell.

At two o'clock Perry left and walked to a coffee bar in the Brompton Road. He was there for half-an-hour, then returned to his post, this time at another corner of the Square. Because there was nothing else to do, Casson repeated his taxi trick, but this time having it parked in another position; and to lull any suspicion, he told the taxi driver to pretend to be mending the engine.

At half-past four Perry left again and walked to the Knightsbridge Underground, taking no precautions to see if he were followed. When he disappeared down the steps to the trains,

© 1955 by William Mole. Reprinted by permission of the book's publisher, Dodd, Mead & Co. Distributed by King Features Syndicate

Casson let him go. He was prepared to bet that Perry would return to Bickerseth Street and he was satisfied with the afternoon's work. He had proved to himself that Perry was the blackmailer. All he had to do now was to be able to prove it to Strutt.

He went to his flat in Mount Street and had a bath. While he lay and soaked he thought out the next moves. Casson must get recognizable photographs of him in his disguise as Bagot; and he must continue to watch him at work in Montpelier Square.

When he had dressed and mixed himself a Martini, he rang the garage which maintained his car. He instructed them to drive her at eleven the next morning to Montpelier Square and park her outside a certain house whose number he gave them. On the way they were to pick up his housekeeper. He arranged that Mrs. Baker was to wait there for him, sitting in the front passenger seat where she could easily be seen by any passer-by such as Perry. Having fixed his tactics, Casson returned to Chiswick.

The next morning the departure from Bickerseth Street was repeated. Bagot emerged from Perry's house, locked the door, looked up at the sky, put on his green pork-pie hat, and walked away. Casson, waiting and ready, got three photographs. He made no haste to follow the raincoated figure. He wound on the film in the camera, took out the spool, and sealed it in a canister. He reloaded the camera and took it back into the bedroom, where he put it, together with its telephone lens and folded tripod, in his suitcase. He labelled the full canister of film with the number, the date, and the time of photography. Then he went up to Mount Street.

He changed into another suit—one that Perry could not yet have seen him wearing. He took a taxi down to Knightsbridge and strolled from the top of Trevor Place to Montpelier Square. His car was parked with Mrs. Baker sitting placidly in the front seat, knitting.

At the far end of the south side of the Square was Perry. This time he was sitting on the curb with a sketch-book, took off his spectacles to wipe his face, but hurriedly replaced them. He started walking towards the van. Casson scrambled into the back and lay on the dusty floor, wedged up against the side.

On Monday, the wily Casson arranged to forge a photo.

Electroshock Therapy Aids Some Mental Ills

By HERMAN N. BUNDESEN, M.D.

PROBABLY nothing in any of the field of medicine invokes more helpful to about one-third of the misundrestanding and apprehension than electroshock therapy. Yet it is of even greater value in treating mental diseases involving mood, such as manic-depressive psychosis and involutional melancholia.

While it can be a dangerous weapon, it also is a very valuable tool in treating many diseases of the mind. In fact, this type of therapy is as useful in the treatment of many mental diseases as antibiotics are in treating physical diseases.

Perhaps by explaining a little about electroshock therapy I can clear up some of the misunderstanding about it.

No Shock or Pain

For one thing, there is no shock in the known electrical sense. Neither is there any pain, since the patient is unconscious during treatment.

By applying from 100 to 200 volts of electricity for one-fifth to one-half second through the frontal area of the human brain, we can produce an epileptic-like convulsion in the patient.

Marked Improvement

This convulsion brings marked improvement in many patients with certain types of mental illness. Why it does so, we don't know. Originally, electroshock therapy was developed for treatment well.

Ohio Whale-Hunting Curbed

By HAL BOYLE

NEW YORK (P)—Some things a columnist might never know if he didn't read his mail or old magazines in his dentist's office: That it is illegal to catch whales in Ohio on Sundays, but in easy-going Tennessee there is no law against shooting them from moving automobiles.

That 96.5 per cent of the farms in Japan have electricity, as compared to only 91 per cent in America.

That politics has an extra hazard in Sumatra, where, in 1954, three election officials and 55 voters were eaten by tigers.

That Queen Isabella of Spain, who backed Christopher Columbus on his wrong-way voyage to India, is said to have boasted she took only two baths in her life—when she was born and when she was married.

That about 10 million volunteer workers raise \$5 billion in the United States every year for

charitable and philanthropic causes.

That 55 per cent of the prisoners released by state and federal prisons are back behind the bars within five years.

That Thomas Jefferson was one of eight U. S. presidents who never vetoed an act of Congress.

Franklin D. Roosevelt used the veto most—631 times.

That Europeans who sneer at the United States as musically illiterate probably don't realize this country has 938 symphony orchestras and that its radio stations carry an average of 6.9 hours a week of classical music.

That one half of American men today wear knit shorts (or so an underwear company claims) but did you ever hear of a wife who knitted her husband shorts?

That the late bandleader Tommy Dorsey, whose recordings sold in the millions, earned 68 cents for his first public appear-

ance with a band called "The Shenandoah Wild Canaries."

That the word "Lord" appears 8,000 times in the Bible.

That deaf children spell better than children with unimpaired hearing.

That 26 jet planes, warming up, make as much sound as a full symphony orchestra multiplied 1,000 times.

That Wally Rose, veteran movie "daredevil," says film stunts have cost only four lives in 50 years.

That if you are planning to be among the first air passengers to the moon, you'd better start hoarding your pennies now. At six cents a mile, the round trip will cost \$28,680, first class.

That Americans buy 60 million decks of cards a year and spend at least 12 billion hours a year playing card games.

That it was H. L. Mencken who observed, "men have a much better time of it than women; for one thing they marry later; for another thing, they die earlier."

Miss Brugler Gives Talk At WSCS Christmas Meet

Miss Margaret Brugler was guest speaker at the annual Christmas meeting of the Woman's Society of Christian Service of First Methodist Church.

Sixty-five members and 11 guests were seated at artistically decorated tables for the covered dish dinner, held in the church social rooms.

Following the dinner, a short business meeting was conducted by Mrs. Roloff Wolford, president.

Mrs. James Shank was in charge of the program, which opened with the group singing Christmas carols.

Mrs. Richard Plum led the devotions by reading the 146th Psalm and an article from the Circles' devotional guide. Mrs. Larry Graham sang "Oh Holy Night."

Miss Brugler, associate director of the Town and County Department of Ohio Council of Churches,

Young Couples Christmas Party Attended By 38

Thirty-eight members of the Young Couples Club of Trinity Lutheran Church met in the parish hall for a covered dish dinner and a Christmas party.

Members of the lunch committee for the event were: Mr. and Mrs. Jim Peters and Mr. and Mrs. Leo Morgan.

During the business meeting, conducted by the president Mr. Clifford Kerns, Mr. Morgan announced plans for decorating the outside of the church for the holidays.

Program chairman, Mr. Leonard Wilson, told the group about the play, "December Bride." Members will begin work on the play after the holidays.

It was announced that the club will meet in the parish December 19 at 7:30 p. m. to go Christmas caroling.

Mr. and Mrs. Wes Edstrom Jr. have invited the group to their home after the caroling.

Junior Women Fete Husbands At Smorgasboard

A smorgasboard in a Chillicothe Hotel was held as the annual Circleville Junior Woman's Club husbands' night dinner.

Arrangements for the evening were made by committees composed of Mrs. Paul Jackson, Mrs. J. A. Cunningham, Mrs. Francis Wirth, Mrs. Joe Drake, Mrs. Robert Seward, Mrs. George Macklin, Miss Regina Thornton and Mrs. Ted Wolfe.

Tables were decorated for the occasion in Christmas greenery and bells and each place was marked by a miniature Christmas candle.

A social hour followed the dinner.

Joan Bartholomew Mr. Toth To Wed 29th Of December

Mrs. Rose Butterbaugh of E. High St. is announcing the engagement of her daughter, Miss Mary Joan Bartholomew, to Mr. Daniel Toth of Columbus.

The bride-elect is a graduate of Circleville High School. She served with the WAC in Paris, France, and is now employed by Lanes Aviation.

Mr. Toth was graduated from St. Charles School, Columbus. He is a junior at Ohio State University, and is employed by the Pepsi Cola Company of Columbus.

The wedding will be an event of December 29 in the Holy Name Church, Columbus.

was introduced by Mrs. Graham. Miss Brugler gave an informative talk, accompanied by colored slides of the refugee camps in Europe, which she visited this past summer.

The need for food and clothing is very great and members are urged to give through the local CROP chairman, the Rev. Sam C. Elsea of 141 W. High St.

Following the illustrated lecture, the Circles went to the untrimmed Christmas tree and hung their donations on it. A friendship circle was formed while the Rev. Mr. Elsea dedicated the gifts.

Apples Flavor Holiday Goodies

Convenient time - and - labor - saving apple sauce and apple slices in cans are a year-round boon to every woman who cooks. But at the holiday season, these products take on new appeal, new interest.

New and timely is a Christmas Fruit Pudding which would be excellent for a Yule buffet.

To make 10-12 servings, beat one egg, add 3/4 cup molasses and one cup canned apple sauce. Sift together 1 1/2 cups sifted all-purpose flour, 1/2 teaspoon salt and teaspoon baking soda. Add to first mixture; mix smooth.

Add two cups seedless raisins, one cup mixed candied fruits and one cup chopped dates. Mix thoroughly. Add two tablespoons melted shortening.

Pour into 1 1/2 quart greased pudding mold; cover tightly. Steam three hours.

Unmold. Serve with your favorite pudding sauce.

For a mince pie with a difference, chop 2 1/2 cups (1 can) sliced apples. Combine with one pound jar mincemeat and 1/2 cup light brown sugar, mixing well.

Line nine-inch pie plate with flaky pastry; add apple-mincemeat mixture. Moisten edge of pastry mixture, moisten edge of pastry pressing edges together.

Trim pastry to within one inch of pie plate rim; fold under. Pinch pastry edge to make an even fluted standing rim. Make slits in top pastry to allow steam to escape.

Bake at 425 degrees F. 30-40 min. Serve warm.

Better fill the cookie jar for the holidays with Apple-Nutmeg Cookies.

For three dozen cookies, cream together 1/2 cup shortening and two-thirds cup sugar. Add two eggs, one at a time, beating after each addition.

Sift together one cup sifted all-purpose flour, teaspoon each baking soda and cinnamon, 1/2 teaspoon each nutmeg and salt. Add one cup rolled oats and mix well.

Add to creamed mixture alternately with one cup well-drained, chopped, canned apple slices. Add one cup chopped walnut meats; mix well.

Drop by rounded tablespoonfuls on greased baking sheet. Bake at 350 degrees F. for 15-18 min.

14 Attend Meet In Hayslip Home

Mrs. Virgil Hayslip was hostess for the December meeting of the Morris Ladies Aid. Twelve members and two guests were present for the session, conducted in the church.

The meeting was opened by the group singing Christmas carols. The scripture reading was given by the president, Mrs. Carl Anderson. Mrs. Roy England offered prayer.

The secretary and treasurer reports were given and an announcement was made that 130 cards and 39 calls had been made during the month.

The session closed with "The Lord's Prayer."

Squeeze your Florida oranges every day for delicious vitamin-C rich juice but save a few for pomanders - they're fine Christmas gifts that you can make yourself. Even in the days of "good Queen Bess" pomanders were "efficacious in keeping away musty scents" from closets and linen shelves. Make them now for their fragrance is best a few weeks after they are made.

Select thin-skinned oranges (easiest to stick cloves into), or grapefruit for bigger pomanders, and follow these directions. If you prefer, you can make your own scents from different spice combinations.

FLORIDA POMANDER

Florida oranges Powdered orris root
Whole cloves Ground cinnamon

Select firm oranges for making pomanders. With fork tines, make rows of holes in the skin. Stick whole cloves into the holes until the rind is completely covered. Roll orange in a mixture of equal parts of orris root and ground cinnamon. Pat in as much of the powdered mixture as will adhere to the orange. Wrap the pomander in tissue paper or other soft paper for several weeks. Remove the paper, shake off any loose powder, and the pomander is ready for use in drawers or on linen shelves.

To hang in a closet, crochet a loose circular cradle, or simply tie the pomander with a piece of ribbon, ending in a loop.

Beta Sigma Phi Sorority Conducts Monthly Meet

The regular monthly business and cultural meeting of Kappa Alpha Chapter, Beta Sigma Phi Sorority was held in the home of Mrs. Stewart Martin of 380 Cedar Heights Rd.

Miss Emma Tennant, the group's president, presided during the business session, at which time plans were made for the Sorority's Christmas dinner. The dinner will be held at the Pickaway Country Club, December 15 at 7 p. m.

Those serving on the committee for the dinner are: Mrs. Richard Swenson, Miss Tennant, Mrs. Orville West and Mrs. Fred Borries. Mrs. George Hamrick, service committee chairman, reported

For a delightfully different dessert for the holidays, try this Coconut-Cranberry Crumb Pie! Use the traditional cranberry sauce combined with apples and glamorize these fruits to a gourmet treat with tender-flaked coconut. This luscious dessert will give your dinner a surprise finish that is sure to call for many repeat performances throughout the year!

Coconut Cranberry Crumb Pie

1/4 recipe Pie Crust
2 1/2 cups (1 pound 4 oz. can) whole cranberry sauce
2 cups sliced apples
2 tablespoons sugar
1 tablespoon flour
Dash of salt

Line a 9-inch pie pan with pastry, rolled 1/8-inch thick. Flute edges. Combine apples, 2 tablespoons sugar, 1 tablespoon flour, and salt; mix well. Turn into pie shell. Break cranberry sauce with fork and spread over apples. Bake in hot oven (425° F.) 30 minutes. Meanwhile combine 1/4 cup sugar, butter and 1/2 cup flour and mix with pastry blender or fork until crumbly. Mix in coconut. Sprinkle over partially baked pie and bake 20 minutes longer. Serve warm.

ciation of Presbyterian Church will meet at 2 p. m. Friday in the session room of the church.

The Christmas party of the Ashville Garden Club will be held Thursday in the home of Mrs. Floyd Hook, with the following members as co-chairmen: Mrs. Russell Hedges, Miss Frances Decker, Miss Katherine Decker, Mrs. George Kuhn and Mrs. Hook. Mrs. George D. McDowell will have a Christmas story and Mrs.

David Dill will present special Christmas music. A dollar gift exchange will be held.

Do You Know Your Social Security Law?

BY C. C. DABBY
Columbus Manager
Social Security District

The 1956 amendments to the social security law include several provisions which make it easier for a self-employed farmer to understand his rights under the old-age and survivors insurance program. One of these relates to share-farming or share-cropping.

Congress realized that there was need for clarification of the status of the share-cropper as a self-employed farmer for social security purposes. Persons who share another person's land on a share arrangement often have some characteristics of employees and some characteristics of self-employed persons.

The amended law makes it clear that, where social security is concerned, in the general share-farming arrangement they are self-employed farmers if their share depends on the total amount produced, even in cases where the landowner has a lot to say about the way the farm is run.

Another amendment will help clear up questions about crew leaders ("labor contractors" or "row bosses") in relation to short period workers they furnish to farmers for the harvesting of fruits and vegetables or the picking or cropping of cotton. These farm workers may be covered by social security law, but in the past it has sometimes been easy to tell whether the employer of the members of the crew was the farmer who was having the work done or the crew leader (or "labor contractor" or "row boss"). The amended law makes it easier to tell who is the employer.

IF YOU are a crew leader, the crew members you furnish and pay are your employees unless you and the farmer have entered into a written agreement which shows that you are his employee.

If you are a farm operator using crew workers, and you have entered into a written agreement with the crew leader which shows that he is your employee, then the crew members are also your employees. This provision is effective for work performed after December 31, 1956.

Because members of a farm crew move from farm to farm and area to area, a greater part of their cash farm wages will be covered by social security where the crew leader is the employer, as these short-period workers generally work for the same crew leader longer than for any single farm operator.

Moreover, where the crew leader is the employer, the farmer is relieved of the responsibility of record keeping, social security tax withholding, and reporting, and the obligation of getting information about each of the workers with whom he may have only a brief vague contact.

Having only one employer instead of several different employers in connection with doing the same work, they will more easily

Auto Makers Show Models

NEW YORK (AP) — This nation's auto industry is showing off its glamorous new products at the National Auto Show here.

Scene for the 11½ million dollar industrial extravaganza is New York's new Coliseum on Columbus Circle. For all practical purposes the show opened Friday night as thousands of persons roamed over three floors to inspect the last word in passenger cars and trucks and scores of outworn displays of engineering component like fuel injection systems, high compression engines, braking systems and multiple barrel carburetor assemblies.

It was an invitational preview for the press, industry representatives generally and their friends. The main show runs through the next nine days.

There are 125 passenger cars on the second and third floors of the Coliseum. On the first floor are approximately 70 trucks and coaches. Counting in the huge rounded stage, from which a top musical revue will be presented six times daily, the presentation takes up 300,000 square feet of exhibition space.

Theoretically the show is restricted to what the industry knows as "production" model cars, cars that actually may be purchased in the market places. But several

Union Unpenalized For Officer's Act

WASHINGTON (AP) — The Supreme Court has ruled unanimously that unions may not be deprived of benefits under the Taft-Hartley Labor Act because one of their officers filed a false non-Communist affidavit.

Justices Douglas delivered the opinion which held that the only penalty provided is a fine and prison sentence for the union officer.

Speaking for the entire court, Douglas said there was "no indication that Congress meant to impose on a union the drastic penalty of decompensation because its officers had deceived the union as well as the board by filing a false affidavit."

meet the \$150 cash wage and 20-day time tests which apply to their farm work for each employer.

In my next article, I shall explain how the amended law has changed the social security coverage rules for all farm employees and how, beginning with 1957, it will work to the advantage of both employers and employees for whom farming or ranching is a means of livelihood.

Barbs And Shots Foil Escape Try

CINCINNATI (AP) — Barbed wire and a warning shot from a guard Monday foiled the attempt of two workhouse prisoners to escape.

The men were identified as Leonard Stewart, 32, of Hamilton, and Willie Perry, 23, of Dayton.

Guards Walter Cunningham and Justin Thompson said the men ran for a meter house next to the workhouse wall while being escorted to the dining hall. Barbed wire slowed them when they reached the roof and a warning shot stopped them.

The barbed wire entanglement was erected on the meter house roof after two prisoners escaped from that point a month ago.

Amvets Ask Trial For 2 Turncoats

COLUMBUS, Ohio (AP) — Ohio AMVETS Commander Edgar L. Williams of Hamilton said Monday the organization has requested court martial for returned turncoats Arley Pate of Carbondale, Ill., and Aaron Wilson of Urania, La.

He said the request was made in a letter to Secretary of Defense Charles Wilson.

Pate and Aaron Wilson were two of 21 American prisoners of war who chose to stay in Red China after the fighting in Korea was over. The two recently decided to come home.

Actress Bruised In Auto Mishap

PALM SPRINGS, Calif. (AP) — Actress Jayne Mansfield suffered bruises and skinned knees in a car mishap.

She and her daughter Jayne Marie, 6, were in a car driven by Mickey Hargitay, husky "Mr. Universe." He said the steering mechanism apparently failed. The car swerved across the highway and hit a telephone pole.

U.S. Industrial Production Expected To Keep High Level

CLEVELAND (AP) — "Steel" Magazine said today that production of the nation's industrial plants, now approaching a new peak, will continue on a high level during the first half of 1957.

The magazine pointed out that its industrial production index has exceeded the previous high mark of 164 set in 1955. The index is based on steel, automobile and electricity output and freight car loadings.

Steel output is expected to remain at or above rated capacity in the next several months, but freight car loadings are in a seasonal decline, the metalworking weekly said.

"Auto production is expected to reach its 1956 high point in mid-December," the publication said. "The electric utility industry in the week ended Dec. 1 moved above the 12 billion kilowatt-hour mark for the first time. The previous weekly record was 11.6 billion kilowatt hours set in 1955."

"Steel" said sales in the metal working industries would hit 145 billion dollars — 10 billion more

dollars or more in home building, with major appliance makers also feeling the impact."

Steel mill operations hit 100.5 per cent of rated capacity last week—a gain of one-half point—with production totaling 2,474,202 net tons of steel for ingots and castings.

"Steel's" price composite on steelmaking scrap climbed to \$86.17 a gross ton, a gain of \$1.50. The composite on finished steel stood at \$137.66 a net ton, unchanged from the previous week.

Bobby Feller Decides It's Time To Retire

After 21 Years' Play, Rapid Robert To Take Indian Office Job

CHICAGO (U) — Bob Feller, the Van Meter, Iowa, ploughboy who grew up to become the major league strikeout king and one of baseball's greatest of all pitchers, has decided to retire from active service after 21 years with the Cleveland Indians.

A friend of Feller's advised The Associated Press today that the former fireballing righthander, who turned 38 last month, had told him he had just about made up his mind to retire from the player ranks and accept an offer of a job in the Indians' front office.

Feller is now attending a meeting in New Orleans of the Baseball Players' Assn. of which he is president. He is expected to make his retirement announcement within a week or 10 days.

(In a phone conversation with the Cleveland Plain Dealer, Feller said he hadn't made up his mind yet. "I will return to Cleveland after this week and plan to confer with Hank Greenberg before Christmas," he said. "I hope to reach a decision at that time.")

"Bob had his mind pretty well made up when I talked to him," Feller's friend declared. "At first he was determined to continue on the active list, if not with the Indians then with another big league club. Now I believe he is convinced he would be crazy to hang on."

Feller, who won 266 games and lost 162, despite three and a half years' service with Uncle Sam, was used only four times as a starter last season, losing all four.

Cleveland General Manager Greenberg, who had offered the front office job to Feller, said he had received no word from the former Indian ace.

"I certainly hope it's true," Greenberg declared. "I talked with him a month ago and he told me he would let me know when he made up his mind. I haven't heard from him since."

Greenberg explained he had outlined no specific duties to Feller when he offered to promote him to the front office.

"I offered him the choice of taking his release and pitching for another club," he said.

some other club," Hank said, "or accepting a job with us in the front office so he could learn the business end of baseball."

"I explained to him that, in my opinion, he would be making a mistake if he rejected our proposal and tried to hang on as a part-time performer. I pointed out to him that I had to make the same decision and I was never sorry for what I did. It's tough to admit you don't have it any more but it's tougher still to bounce around from club to club."

Greenberg said Feller's duties at the start would be to assist in the office, do promotional work, some scouting and other things.

"I hope Bob doesn't change his mind," the Hall of Famer said. "I think it's a wonderful opportunity for him to learn the business and at the same time do a great service to the club. We sincerely want Feller to remain with us. As far as I'm concerned, there will always be a job waiting for Bob in the Cleveland organization."

Feller won more games than any other hurler in Cleveland history. The Indians decided they could no longer carry him on the active roster because of the presence of so many promising young pitchers who had to be given the chance.

Only two years ago, at the age of 36, Feller turned in a sparkling 13-3 record but slumped to 4-4 the following year. A six-time 20-game winner, Bob reached his peak in the 1939-41 seasons, winning 76 games in those three years.

Rapid Robert, as he was called, set numerous records but the ones he cherishes most are his three no-hitters, his dozen one-hitters, his 348 strikeouts in 1946 and his 18 strikeouts in one game against the Tigers on Oct. 2, 1938. His lifetime total of 2,581 strikeouts in 3,828 innings is second only to that of Walter Johnson.

Tokyo, Detroit Eye '64 Olympics

HONG KONG (U) — Tokyo has an even chance of hosting the 1964 Olympic Games, a high Canadian Olympic official said today.

Only two cities — Tokyo and Detroit — at present are under serious consideration by the International Olympic Committee, said E. Howard Radford, assistant chief of mission of Canada's Olympic delegation and member of the Canadian Olympic Committee.

Radford said friends on the IOC told him during the Melbourne games "it's a toss-up between Tokyo and Detroit at this point."

Cubs Gain Pair Of Catchers In Flurry Of Player Deals

CHICAGO (U) — The Chicago Cubs, who only 24 hours ago were desperately seeking to strengthen their catching department, had two new backstops today after the purchase of Charlie Silveira from the New York Yankees and the acquisition of Pay Katt in a 10-player trade with the St. Louis Cardinals.

Katt, a .247 hitter who clouted 13 home runs last season, came first. With him came pitchers Tom Poholsky and Jackie Collum and infielder Wally Lammers, who was immediately shipped to the Cubs' Los Angeles farm club in the Pacific Coast League.

Two other players, of minor league caliber, have been promised by the Cardinals no later than March 1. These players will be sent to the Yankees along with \$10,000 for Silveira.

In return for the Redbird flock, the Cubs sent pitchers Sam Jones and Jim Davis, catcher Hobie Landrith and utility man Eddie Miksis. Jones, who pitched a no-hitter against Pittsburgh May 12, 1955, and Poholsky, who hurled a 22-inning game while with Rochester back in 1950, were the biggest named in the transaction. Each had a 9-14 record last year.

Manager Bob Scheffing was enthusiastic over the two deals, his first since he succeeded Stan Hack as pilot of the Cubs two months ago.

"In Silveira and Katt," he said, "We acquired two catchers who are better than anybody we had last season. Silveira would have been a first-string catcher if he were on any other club but the Yankees. Katt has a lot of power and should find Wrigley Field to his liking."

The youthful skipper thought the exchange of pitchers with the Cards was a standoff but expected to get more pitching out of Poholsky than he did from Jones.

Aside from trades and trade talk, the two leagues were involved in legislation and re-election of officers.

The two leagues voted to adopt a minor league plan to consolidate their annual meetings and have them alternately in a minor and major league city.

They also voted to set up a player pool to supply talent in case of a catastrophe to any member club, such as a plane or train wreck which could wipe out a team.

The American League voted to adopt a three-game post-season playoff in case of a tie for the pennant. In the past, the American League has had a one-game playoff. The National League has had a three-game playoff.

Cleveland General Manager Hank Greenberg withdrew his proposal for interleague play. Greenberg had wanted each major league club's schedule of 154 games to include 28 contests with teams in the opposite league.

Officers in both leagues were re-elected while American League owners re-elected president Will Harridge to a 10-year term.

Texas To Honor Bobby Morrow

ABILENE, Tex. (U) — Bobby Morrow, mighty man of the Olympic Games, was to get the welcome of a conquering hero today.

The tall Texan who sped to glory in the Olympics and brought this city and Abilene Christian College their greatest renown planned to have a 20-foot red carpet rolled out for him when he alights at the Abilene Airport.

A parade downtown with 5,000 of Morrow's admirers showering him with ticker tape and a testimonial dinner tonight will make "Bobby Morrow Day" in Abilene an occasion to be remembered.

Church Fives Win Contests Monday Night

In two county church league basketball contests played last night at the Franklin St. Armory, Pontious EUB downed Ringgold 74 to 63, and St. Paul Lutherans of Ashville downed the local Trinity Lutherans, 61 to 49.

The Pontious cagers, trailing by eight points at the end of the first half, rallied to knot the score in the third period. They maintained their rally in the final stanza to win by a comfortable margin.

High man for the Pontious five was Don Hinton with 22 points. Don Hurley earned scoring honors for the losers with 23.

In the Lutheran contest, St. Paul

Baseball Players Form New Group

NEW ORLEANS (U) — A group of major league baseball players ended a two-day meeting today after forming the Baseball Players' Assn.

Cleveland pitcher Bob Feller, elected president of the new group said it was not the beginning of a guild or union. However, they asked that club owners meet with them to study pension, salary and bonus problems.

Feller, Robin Roberts, Ted Kluszewski and Eddie Yost will meet in New York Monday with club representatives Joe Cronin and John Galbreath to work on a pension plan.

Argentine Wins Over McBride

NEW YORK (U) — Alex Miteff is going home to Argentina for the holidays to get married but the unbeaten 21-year-old heavyweight will be back in February to continue his ring career.

The Argentine went over seven rounds for the first time Monday night to win a split decision over Archie McBride of Trenton in a 10-round match. It was his first main event.

Referee Artie Mercante and judge Tony Castellano saw it 6-4 for Miteff.

Ray Simmons has coached Syracuse University lacrosse teams for the last 25 campaigns.

There are 106 colleges in the Eastern College Athletic Conference.

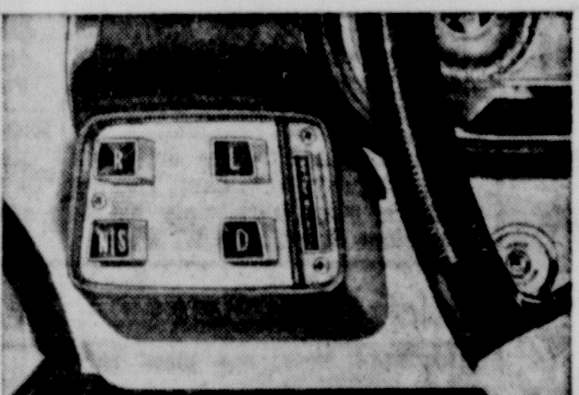

Cage Meet Tonight

Local basketball fans are invited to attend "a meet the team night" tonight at the Circleville High School social rooms when members of the 1956-57 CHS squad will be introduced to cage followers. Sponsored by the Booster club, the program is scheduled to get underway at 7:30 p. m.

Dream-car beauty, bigness and features at a price you never dreamed possible!

SLEEK NEW DREAM-CAR DESIGN REPLACES BULGES
Mercury introduces bold, clean-cut lines shared by no other car. Distinctive V-angle Tail-lights, dramatically different Jet-Flo Bumpers, sculptured rear deck and roof—here's styling that will influence the shape of cars for years to come.

NEW KEYBOARD CONTROL SIMPLIFIES 6 OPERATIONS
THE BIG M's new keyboard is far more than a push-button transmission. It starts the engine—controls neutral, drive, low, and reverse—even releases Mercury's Toe-Set Parking Brake.

EXCLUSIVE FLOATING RIDE ABSORBS BUMPS
Mercury's great new Floating Ride combines the greatest bump-smothering features ever put between you and the road. Exclusive Full-Cushion Shock Absorbers, new swept-back ball-joint front suspension, and many more features found in no other car.

FAM SAVES HORSEPOWER OTHER CARS WASTE
A Power-Booster Fan, in the Montclair series, coasts when not needed for engine cooling (80% of the time). Not only do you get better performance, but engine sound is reduced. You get a far quieter ride.

POWER SEAT THAT "REMEMBERS" ENDS GUESSWORK
No need to hunt for your favorite seat adjustment. You dial it from the instrument panel. Every driver in your family has his "just right" setting.

BIGGEST SIZE INCREASE IN THE INDUSTRY...NO GROWING
The new BIG M is bigger in every important dimension. More than 17½ feet long, over 6½ feet wide, with inches more leg room, headroom, and hip room—the most spacious Mercury ever built.

THE BIG M OUTDATES THEM ALL! No other car shares this look. No other offers you so much bigness and luxury at such a low price. No other offers you so much that's new—the features above only begin to tell the story. Mercury for '57 also introduces new Quadri-Beam headlamps*, for a new and better pattern of illumination. New Ball-Action steering makes handling easier than ever. New high-level cowl ventilation provides cleaner, fresher air. But there isn't room here to list everything. We invite you to stop in at our showroom and look over all the new features.

*Optional equipment, except in Tennessee and South Dakota

Ohio Mental Health Group Plans Strengthening Position

COLUMBUS, Ohio (AP) — On a note of "something good can come out of this," the Ohio Mental Health Assn. this week begins efforts to strengthen its position before a January investigation of its program for public support in mental health problems.

The National Assn. for Mental Health announced the investigation last month after hearing complaints from three affiliates of the Ohio association. It placed the OMHA on a non-voting status in national affairs pending the outcome of its investigation next month.

The three, Cleveland, Cincinnati and Columbus, pulled out of the state association after expressing lack of confidence. Although specific charges from all three have never been made public, a letter from the Cincinnati group read Saturday by attorney Earl Allison at the OMHA's annual meeting indicated dissatisfaction with:

1. Sections of the OMHA's constitution and by-laws.
2. What the Cincinnati organization apparently felt was too short notice before meetings were called.
3. The budget.

Walter G. Nord of Oberlin, re-

lected president of the Ohio association this weekend, said Allison has a chart indicating that no meeting was called with less than seven days' notice.

Nord said an exact budget report was not possible in April because a fund-raising drive had just started. If there were any budgetary changes, he asserted, it was because "budgets as a rule are mere guesses of what to do if you get the money to do it with."

His comments came in discussion of what he said were remarks made by John Fels of Cleveland, who resigned from the board of directors in the Saturday morning session. Fels' resignation and that of Louis B. Seltzer, editor of the Cleveland Press, were accepted.

"The root of all the trouble is that this organization does not have the money to operate on," Allison asserted. He called for more office help and a speaker's bureau to carry the OMHA's message to Ohio communities.

Driving Ban Ends

BERN (AP)—The Swiss government decided today to end the ban on Sunday driving, imposed to reduce gasoline consumption. The government hopes voluntary restraint by auto owners would cut fuel use.
